

Peopleflow in Agora – the ”Agora app”

- Peopleflow
 - how to get people to the right place in a building quickly and pleasantly
 - Kone, Retail, Hospitals
- Agora app
 - I’m coming to a meeting in Agora how do I find meeting room Simon - Find your way
 - There is a talk about indoor positioning in room Petäjä - You are in the building and have a free slot get reminder and directions
 - The lunch queue is short now, go have lunch!
 - Agora is small, challenges are small
 - Potential: Big complex buildings (hospitals, shopping malls, office centers), big challenges

Proposal

- Research project at ÅA and UTU
 - Prototype indoor positioning system developed
 - Cheap and easy – based in bluetooth beacons, android app, our own server and visualisation framework
- What I need:
 - Testing of framework
 - A demonstrator – the Agora app
- What you get:
 - Understanding of indoor positioning (a very hot topic at the moment)
 - You demonstrate your competence with an app with great commercial potential
- IPR split
 - Framework: open-source
 - Demonstrator: I'm open for proposals
- Contact: Johan.Lilius@abo.fi, room 346A
